<b>Testing Defect Log</b>			
Defect #	Description	Severity	How Corrected
1	Difficult to test code that inside of HTML files	Medium	Refactor code to outside JS files
2	Knights, Bishops, Rooks only have tests confirming that they can move forward, not backwards	Medium	Add QUnit tests to account for this in the availableMoves test
3	No unit test to check for duplicate email address or username registration	Medium	Add Test to check for existing users and report it as invalid
4	No check to ensure Log in and Create Profile sanitize their inputs.	Medium	Add QUnit test for respective JS files
